

General Manager's Report April 17, 2019

Information only

Administrative Items:

- Easement Issues:
 - Roxborough Park Foundation is developing a site plan for Schmidt property; District has a 30' easement for a water line to Ravenna that runs through the property that must be protected.
 - New home on Cicero Ct. in Ravenna has been constructed with 12" water line and 10" sewer in the backyard. Builder has added approximately 4' of fill over both lines with RWSD review and approval, and built a retaining wall over the sewer. We are in discussions to resolve the issue.
- Flushing Issues:
 - Encountered issues with plugged culverts and overgrown ditches when flushing in Roxborough Park. Debris reduced culvert capacity and resulted in water and debris overtopping some driveways. Field staff spent multiple hours cleaning up debris. Resident on Black Squirrel is claiming damage to landscaping. Roxborough Park Foundation is taking position that these culverts are the responsibility of the residents. Regardless of responsibility for culvert maintenance, RWSD is not responsible for culverts or damage that resulted from lack of maintenance.

Information only

Dominion/Sterling Ranch:

- Met with Douglas County on 4/8 to discuss access to the water treatment plant. The County has agreed to right in/right out access from new Waterton Road, and is willing to consider $\frac{3}{4}$ access (left and right out/right in). Advised to submit supplemental comments to address interim access until Waterton Road is complete, secondary access, and access to the residence on site.
- Informal discussions with Douglas County regarding use of remaining NWDC Project grant funds to support further design of potential alternatives to support fire flows to Plum Valley Heights and Douglas County have been positive.
- DWSD has requested RWSD consider a 3-5 year extension of the Agreement to convey flow to Littleton. We are meeting to discuss terms of a potential agreement on 4/11 and will report on those discussions at the Board meeting.

Information only

Inclusions:

- Meeting with Douglas County and Louviers to discussion conceptual approaches to provide water to Louviers.
- No current requests for inclusion. Continue discussions with the property owners on Rampart Road and with the Haberers with regard to their property on Roxborough Park Road.

Information only

Ravenna:

- Phase 2 Water Connection nearly complete. Ravenna is completing revegetation at the north connection per our agreement with them.
- Castle Rock has begun water deliveries for this season.

Information only**Raw Water Irrigation:**

- Conceptual design underway to rebuild Lambert Reservoir dam. Very good meeting with State Engineer's Office Dam Safety engineer on 4/8.
- Provided additional information to Aurora to support evaluation of removal of RWSD facilities from Rampart Reservoir and new pump station to access both the Aurora transmission line and the Ravenna pipeline.

Information only**Public Outreach:**

- 23 of 25 Garden in the Box coupons have been requested.
- Blog post on new rates in March and water conservation (and new rates) in April.
- I've been requested to make a "Water Quality 101" presentation to the Douglas County Board of County Commissioners.
- Continuing development a "live map" for the website that will show every location where water quality is monitored and most recent results of monitoring and flushing zones.
